## A great Engineer...

Develops the creative, technical and practical expertise needed to perform everyday tasks confidently and to participate successfully in an increasingly technological world.

Builds and applies a repertoire of knowledge, understanding and skills in order to design and make high-quality prototypes and products for a wide range of users.

Critiques, evaluates and tests their ideas and products and the work of others.

Understand and apply the principles of nutrition and learns how to cook.

## Design and Technology objectives

Pupils should be taught the knowledge, understanding and skills needed to engage in an iterative process of designing and making.

Pupils should work in a range of relevant contexts [for example, the home, school, leisure, culture, enterprise, industry and the wider environment].
