Online Safety Half Termly Newsletter Summer Two 2023

Another year in the bag!

The summer break is a great time for children to relax, have fun and explore the world around them. However, the need for online safety continues, even when school is out. We want to remind our school community to ensure that their children stay safe online during the summer holiday. It is important to protect children from potential risks such as cyberbullying and inappropriate content/people.

We urge our school community to use the online safety knowledge that has been shared throughout the year to keep our children safe. To do this, you can either head over to our website or Facebook page. Here, you will find previous editions of this newsletter alongside #WakeUpWednesday posts. Don't forget, you can also download the National Online Safety (NOS) app to have a wealth of information at your fingertips! (See below for details).

Together, we can ensure that the summer holiday is a safe and enjoyable experience for everyone!

Take care until next time,

Miss Ryan – Computing Lead
